

COMBINATION BENCH AND PIPE VISE DESIGNED FOR AUTOMOTIVE USE!

NUK-L-SAVRS for protection. With these neoprene shock absorbers the handle never pinches

PIPE JAWS are of hardened steel, plated, replaceable.

HEAVY-DUTY JAW FACES are hardened steel, with deep-cut serrations for firm grip.

ANVIL AND FORMING HORN are extra large and reinforced for real "take it" strength.

BEEFIER MAIN CASTINGS provide extra ruggedness and precision.

SPINDLE COLLAR keeps spindle aligned for smoother operation. Hardened for less wear.

FORMED STEEL CHANNEL is heavier and harder . . . bonus strength and toughness.

NEW SERRATED SWIVEL BASE for versatility, strength and rigidity. 360° rotation — double lock nuts.

NEW WILTON 1600 MECHANICS' VISE

Wilton gave the new 1600 Mechanics' Vise a bonus of strength, weight, precision and operating advantages. Its main castings are beefier . . . jaws are stronger . . . steel channel is now harder and heavier to take extra pressure and impact . . . new, serrated base has double lock-down with positive grip in 360° rotation. In fact, everything about this new Wilton 1600 says **this automotive vise can take it!** And . . . the price is right.

**the vise is right
— and so is the price!**

Catalog Number	Jaw Width	Maximum Opening	Jaw Depth	Pipe Capacity	Shipping Weight	List Price
1644	4"	4½"	3¾"	⅛"-2"	30 lbs.	\$27.30
